

I strongly object to LPFM stations taking priority over FM stations. This could cause our area to lose our best radio station, K-LOVE (FM 88.7 or 89.7), one of only two stations in this area that is totally family friendly and full of merit. Our family listens to K-LOVE every day for several hours. We are enriched and encouraged by K-Love and would suffer great loss without it. K-Love has a positive affect on youth today, an area that definitely needs all the positive direction possible. In addition, K-LOVE brings hope, humor, encouragement and wisdom to adults as well. Please support all efforts that would keep this station of great value on the air!
